## Innovative solutions, inspired by ice

Follett has a Chewblet® ice and water dispenser solution for every hydration need. From its beginning in 1948, Follett has been a leader in the industry in manufacturing quality, innovative products. Follett ice and water dispensers exclusively feature Chewblet® ice nugget that adds a whole new dynamic to drinks. Enjoying iced coffees, teas, and other healthful drinks has never been so fulfilling. With over 50 models to choose from, Follett makes an ice and water dispenser for every application. Examples include "install anywhere" drainless designs, countertop models that fit neatly under overhead cabinets and sanitary. When you buy a Follett dispenser, you are buying Follett's commitment to quality, durability, and unsurpassed performance.

# Redefining the premium ice machine. Champion

**Champion ice dispensers are Cleaner. Easier. Better. We've made cutting edge refinements, improving upon the platform that launched the original 7 and 15 Series into a leading position in the marketplace, making it the industry's leading icemaker. Champion dispensers offer Chewblet ice, a premium ice type chosen by leading coffee chains and QSRs.**

**Touchless dispensing.  
Activated by hovering a  
finger in front of the sensor**

**Compact footprint. Only 15" wide, and  
the 7 Series fits under standard cabinets  
with a height of less than 18"**

**Produces up to 100 lbs  
of ice in a 24 hour day**

**Three configurations –  
countertop, freestanding and  
undercounter**

**Operates without a drain,  
making it possible to install  
just about anywhere**

**Optional hot water  
expands your drink selection**

## Upgraded 4.3" touchscreen with advanced diagnostics

Best in class alerts and diagnostic tools can be accessed through the user interface. Self help is accessed from the main screen with the ? in the top right corner. Users can access basic troubleshooting, cleaning and filter replacement in easy to use step by step on screen instructions. Component performance data is available to servicers for quick and accurate diagnosis. Champion is IoT ready for remote diagnostics with a required separate hardware and subscription.

## Champion internal ion filter

Included  
as standard

**Ion exchange resin** reduces water hardness through strong adsorption. The resin also partially retains calcium to prevent limescale from forming in the ice machine.

# Symphony Plus Dispensers

425 lb per day of Chewblet ice

## 12 Series

Only 16.12" wide, the 12 Series has the industry's most compact footprint for a 425 lb per day ice and water dispenser and offers 12 lb of ice storage

**25 and 50 Series** Offering 25 lb and 50 lb of ice storage to match with the 425 lb per day production for higher-volume applications

## 110 Series

In addition to offering 90 lb of ice storage for servicing large applications, the 110 Series, like the 25 and 50 Series, features a removable ice making module for ease of service and replacement

## Modular

The ice machine module can be swapped out between 25, 50 or 110 Series dispensers or replaced with a new module for faster, easier service, providing more up-time.

Powerful

Sanitary

Efficient

Reliable

Easy to Service

## Space-saving designs

The most compact footprints in the category

## Antimicrobial

Key components protected with silver based antimicrobial to inhibit growth on treated surfaces

## Infrared SensorSAFE™ or lever

Dispensing options without hand contact put ice directly into your cup and avoid contamination associated with scoop-out ice machines

## Sustainability

Uses up to 20% less energy and up to 40% less water to produce ice than similar-sized, cube-type ice machines

## Filtration

Freestanding units offer several filtration options including factory-mounted filters conveniently located in the base

## Automatic self-flushing

Water system regularly expels minerals and impurities for lower maintenance costs and better-tasting ice
