# A Versatile Seat for Versatile Work

## Seating for a New Era

Your workplace and the way you get it all done has evolved. Chances are, you're not stationed in one place all day anymore—and when you've got a schedule packed with meetings and project planning, the last thing you need is a task chair with confusing adjustments and fussy mechanisms. Designed to support you through a variety of postures and tasks, Flexion goes with the flow when you're on-the-go. With a dynamic seat design that relieves pressure points, a single, uncomplicated lever for easy adjustments, and a clean, frameless aesthetic, this smart seating solution understands that to keep productivity at its peak, comfort is non-negotiable. Ideal for unassigned seating spaces like benching, touchdown, and hybrid areas, Flexion offers straightforward performance and easy agility to energetic environments.

Shown with Abound® workstations and Contain® storage.

"When it comes to unassigned seating, a chair needs to adapt to different users without complicated adjustments. Flexion is simple and intuitive, with both the seat and back moving in relation to natural body motion—you use it and it fits."

Wolfgang Deisig & Nils Köhn Deisig  
Design—Designers of Flexion
