Comfort From the Inside Out

Science, Meet Sophistication

Beauty and brains. Nucleus—task seating driven by exceptional engineering and smart support—checks all the boxes. Combining a modern aesthetic with meticulously-researched ergonomic capabilities, this powerhouse performer puts science into seating. With a suspended contoured seat, responsive 4-Way Stretch or Spectrum Mesh back, and thoughtful pressure mapping, Nucleus has done its research when it comes to all-day comfort and agility.

Shown with Accelerate® panels.

Shown with 10500 Series™ desks and storage, and Workwall.

Intelligent by Design

Nucleus isn't your average, run-of-the-mill task chair. With a seat intentionally designed to operate like a hammock, enjoy relaxation and focus throughout the day. The seat foam is molded over a mesh-covered frame, ensuring a responsive sit with comprehensive weight distribution. And with a contemporary back and arm design—plus mesh backs available in variety of vibrant hues—Nucleus is an aesthetic genius, too.

Options

Arms

Select from four arm choices to customize your comfort and enhance your style.

Height- and Width-Adjustable

All-Adjustable (includes pivot)

Fixed

Polished Aluminum Fixed

Seat Controls

Explore the three control options to find the perfect balance of functionality and ease of use.

Synchro-Tilt with Seat Slider

Advanced Synchro-Tilt

Weight-Activated with Seat Slider

Standard—Designer White, Titanium, or Black

Polished Aluminum

Adjustable Lumbar

Optimize your seating with the adjustable lumbar, and add a touch of color to match your workspace.

Moves up and down to increase lower back comfort

The Science Beneath the Surface

Seat Construction

Inside the Nucleus seat, suspended knit fibers are stretched over a contoured metal wire frame with a light foam molded over top. Once upholstered, this ultra-slim seat provides lasting, supportive comfort.

Pressure Mapping

When you sit in a Nucleus chair, the seat distributes your weight evenly, minimizing pressure points (red zones) for improved circulation and reduced muscle fatigue.

Nucleus Seat

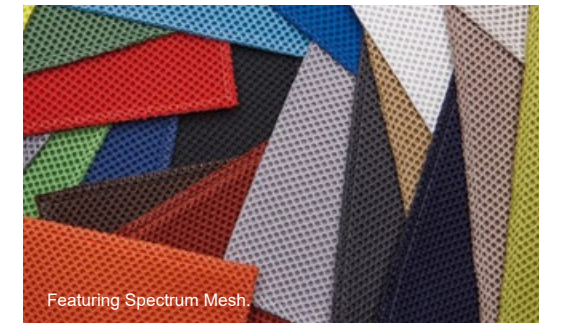

Standard Seat with Pad

Shown with Mod desk and credenza. Featuring Spectrum Mesh.

Featuring 4-Way Stretch Mesh.

Featuring Spectrum Mesh.

Colorful Seating, Expanded Spectrum

Nucleus task, guest, and stool models offer two advanced mesh options, each crafted for all-day performance. Choose 4-Way Stretch Mesh for comfort that flexes in every direction or Spectrum Mesh for 3D construction that adds visual depth and transforms any space with vibrant color.

Featuring 4-Way Stretch Mesh.
